

GW-550 Fiber Cleaver (one action cutting)

Features:

- True one action cutting optical fiber cleaver with just one push
- Tungsten steel blade, high hardness, good wear resistance
- 24 cutting blade surface, supporting 48,000 times fiber cutting
- Multi function fiber holder, suitable for 250μm bare fiber, 900μm, 2~3mm patchcord and drop cable
- 0.5° precision cutting angle, precision CNC machining technology

Specifications:

Items	Specifications
Model	GW-550
Applicable fiber type	Single silicon fiber
Cutting angle(Typical)	≤0.5°
Fiber cladding diameter	125μm
Fiber holder	250μm bare fiber, 900μm~3mm patchcord and drop cable
Cutting length	10~20mm(Φ0.9mm); 9~20mm(Φ0.25mm)
Blade life	48000 times(1000 times×24surface×3height)
Weight	208g
Size	76mm×87mm×46mm(including waste fiber collection box)
