GW-3 Fiber Stripper

Features:

- 3 holes fiber coating stripping, suitable for 250μm bare fiber, 0.9~3mm patchcord.

- 420 stainless steel hardened body, stable and durable.

- CNC cutting technology, sharp and easy to stripper fiber

- Fine grinding and polishing, high smoothness surface, wear-resistant and corrosion-resistant

- Safety buckle design, protecting the blade edge and preventing accidental injury

- Equipped with a reset spring and PVC anti-slip handle

Specifications:

Items	Specifications
Model	GW-3
Product usage	Peel off the outer sheath and coating layer of the optical fiber
Holes number	3 holes (Small: 125~250μm; Medium: 250~900μm; Large: 2mm~3mm)
Applicable fiber	250μm bare fiber, 0.9~3mm patchcord/pigtail
Fiber cladding diameter	125μm
Fiber coating diameter	250μm
Material	420 Stainless steel
Weight	120g
Size(length)	163mm
