

GW-580 Fiber Cleaver

- Real one step optical fiber cleaver
- Full metal CNC Machining, High precision and low loss
- Stable cutting performance, typical cutting angle $\leq 0.5^\circ$
- 72000 blade cleaving lifespan
- Gear-operated blade position adjustment, tool-free, convenient and efficient
- Industry-first comes with three standard fiber holder including universal holder/dual-core holder/3-in-1 holder
- Equipped with residual fiber collection box

Items	Specifications
Model	GW-580
Fiber Type	Silicon fiber
Fiber Count	Single
Bare Fiber Diameter	125 μ m
Coating Diameter	160~900 μ m, 2mm/3mm and drop cable
Cleaving Angle	$\leq 0.5^\circ$ (typical)
Cleaving Length	8~20mm
Blade Life	72000 times (24 positions)
Dimension	76mm(W)×93mm(D) ×50mm(H)
Weight	246g

Let's go in the grandway!
